Declass Review by NGA.

Subject: Proposal 3560 - Automatic Viewgraph Generator

General:

In reference to your recent inquiry, I am forwarding a revised price estimate for a quantity of two (2) Automatic Viewgraph Generators.

Subsequent to the date of our 4 November 1966 proposal, our overhead and G&A bid rates have increased to 148% and 14.2% respectively for fixed price contracts. The projected labor rates for the period of performance have also increased slightly. The revised overhead and G&A rates, and the labor rates have been approved for bid purposes by the Resident DCAA auditor.

In summary the revised quotation on a straight fixed price basis is  for a quantity of two.

25X1

Also enclosed is a revised Certificate of Current Pricing.

In the event that a Patent Rights clause is to be included in this contract, we request that the ASPR 9-107.5 Patent Rights (License) clause be utilized. The provisions of this clause of course would only apply to "subject inventions" resulting from the development being performed under this contract, and not to the basic  10-15 Platemaster, for which a patent and proprietary position has been established in the commercial market.

If you need any additional information, please let me know.

Very truly yours,

Contracts Manager
